**Nigeria PRINN-MHC**

**Goal** To improve maternal, newborn and child health in Northern Nigeria

**Purpose** To improve effective access to MNCH (including RI) services in four states

**Indicator** % of births attended by skilled birth attendant in targeted CEOC clusters

**Source** MNCH Services survey; programme monitoring system

**Nigeria ESSPIN**

**Goal** Nigeria's own resources are efficiently and effectively used to achieve the MDGs for universal education and gender equality

**Purpose** The planning, financing and delivery of sustainable and replicable basic education services in terms of access, equity and quality, are improved at Federal level and in up to six States

**Indicator** Increasing primary and junior secondary net enrolment rates with a reduction in gender disparities

**Source** Annual NEMIS statistical reports

**Output** Increasingly well-managed and accountable basic education services of good quality (in up to six States) through stronger demand from communities and civil society

**Nigeria GEP 2**

**Goal** Nigeria's own resources are used efficiently and effectively to achieve the MDGs

**Purpose** To improve effective access to MNCH services in up to six States

**Output** Increased utilisation rates for child and maternal health services among poorest quintiles of women and children (disaggregated by public and private sectors and by rural and urban locations)

**Source** DHS; State HMIS

**Nigeria PATHS2**

**Goal** Nigeria’s own resources are used efficiently and effectively to achieve the MDGs

**Purpose** To improve the planning, financing and delivery of sustainable and replicable pro-poor health services for common health problems in up to six States

**Output** Effective systems for decentralised school management

**Source** More pupils demonstrate a basic understanding of key health issues, including HIV/AIDS, malaria, polio and sanitation

**Nigeria WES2**

**Goal** To promote and protect the rights of poor people in Nigeria and improve their quality of life through the reduction of child morbidity and mortality from water and sanitation related diseases

**Purpose** To facilitate replicable, sustainable, demand responsive WES services in rural areas of 4 DFID partner states

**Output** Sustainable school WES (FRESH) approaches adapted, piloted and promoted state-wide

**Source** 64 schools with WES facilities being used by 30,000 children and 850 teachers

**Output** do

**Output** do

**Output** do

**Source** Inspector reports
